TRUE FIRE GAME BY PRESSING A BUTTON

The ELEMENTI brand stands for high-quality fireplaces and creative designs with which you can set a highlight in every garden and on every terrace. Thanks to the light and heat-giving properties as well as the simple operation, the ELEMENTI fireplace will become the favourite piece of your outdoor area.

Leave the stress of everyday life behind and enjoy the cosy warmth of the fire. Experience the harmony and pleasant atmosphere in a beautiful garden or in a cosy lounge on your terrace. Nothing is as fascinating and soothing as the play of light from the fire.

WITHOUT UNPLEASANT SMOKE
WITHOUT FLYING SPARKS
WITHOUT SOILING BY SOOT

The ELEMENTI and MODENO fireplaces are operated with standard propane gas. We focus on the highest safety standards and comfort. For some models, the gas bottle can be stored inside the fire tables. For all other models, we offer covers to match the look of the fireplace. This way, you can decoratively accommodate the gas bottle placed outside. You can find further articles for the individual design of your fireplace in the accessories section.

FEEL-GOOD OASIS WITH ELEMENTI

Create your own oasis of well-being at home with the ELEMENTI and MODENO fireplaces - in the garden or on the terrace.

Here you can come to rest after the hustle and bustle of everyday life and let the evening end cosy by enjoying the play of colours in the sky and the flickering of the fire.

Coziness of the fire at cool temperatures

ELEMENTI +

ELEMENTI offers with the new ELEMENTI + series decorative lounge fire tables made of high-quality material. Particularly worth highlighting is the elaborate and noble surface finish. The ELEMENTI + fireplaces will set the scene for your lounge area in a unique way. The fire pits have even more heating power and reach up to 16 kWh.

ELEMENTI

ELEMENTI - THE ART OF FIRE is the most comprehensive series in the ELEMENTI product range. It offers a variety of noble shapes and designs. Thanks to the creative design and the attractive look, the fireplaces can be integrated into various interior design styles. The ELEMENTI lounge fire tables, fire bar tables as well as lounge seating groups provide the cosiness factor on every terrace or in every garden.

MODENO

The MODENO series is characterised by small and practical fireplaces. Thanks to the compact size and the relatively low weight, the fire columns and the small lounge fireplaces from MODENO are ideal for small terraces or balconies.

3 m gas hose, pressure reducer, lava rocks

Consisting of

Built-in gas burners for easy installation in your
existing tables or individual projects. All you have
to do is make a corresponding cut-out and insert
the burner.

Fire Pit-
Accessories

Individualise your fireplace with our high-quality accessories. For instance, just leave the gas bottle disappear under one of our decorative tank covers. Thanks to the burner stainless steel lids the fire pit can also be used as a table or shelf. The windscreens protect the open flame from external interference and ensure a calm play of flames.

Various ceramic firewood or fireproof glass shards provide the gas fire pit an even more authentic look.

Installation of a gas fire pits

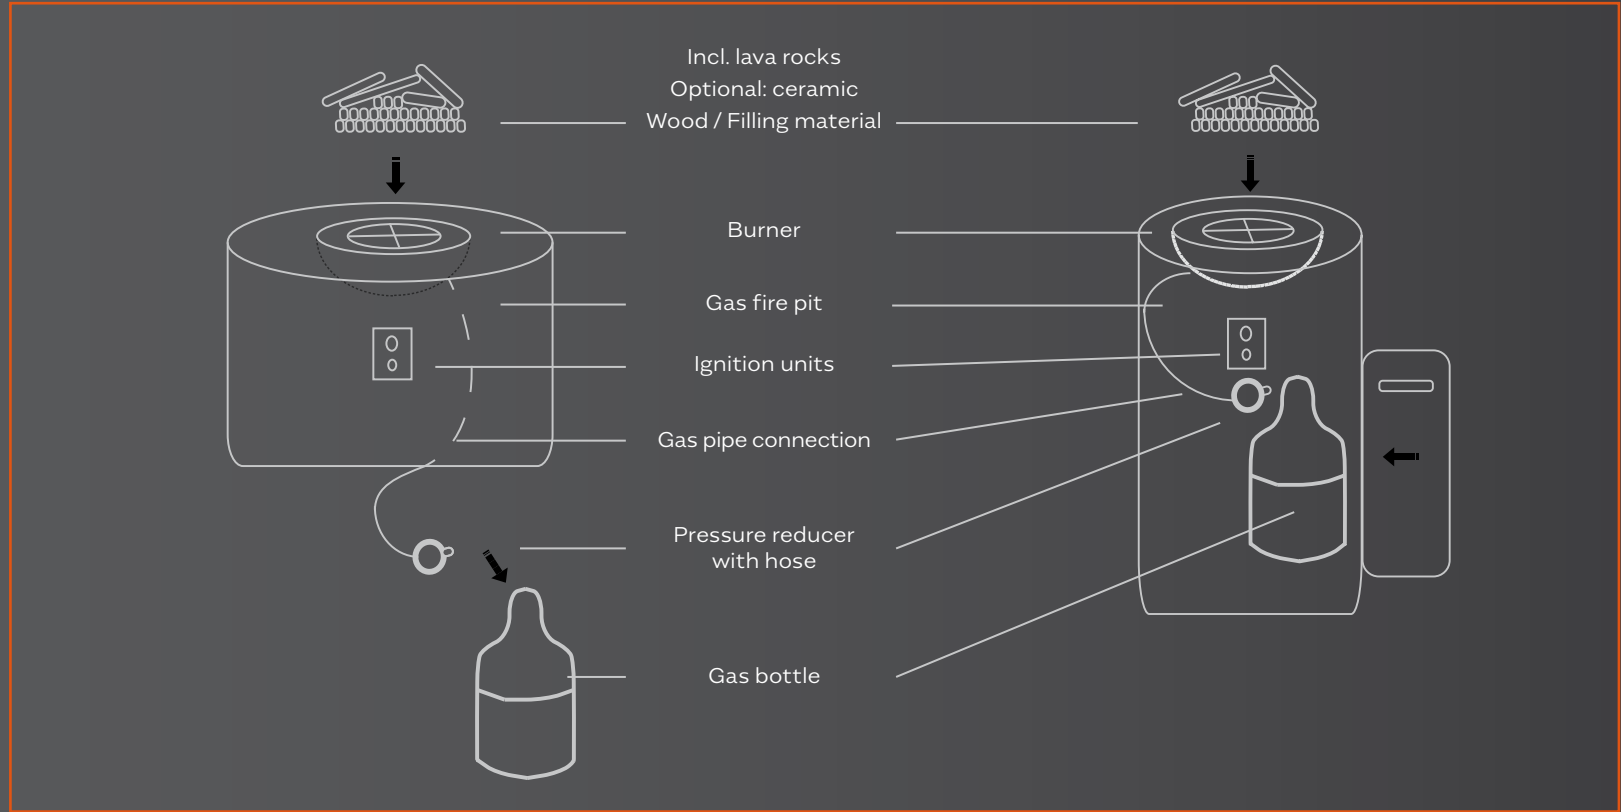

Setting up a gas fireplace

1. Cover the fire bowl with lava stones and / or ceramic firewood.
2. Connect the gas pipe and the pressure reducer to the gas bottle.
3. Tighten the screws of the hose clamps with a screwdriver.
4. Press the gas regulator and turn it up to the middle at the same time, keep pressed while activating the igniter. After the fire has started, hold the regulator a little longer before releasing it.

For further details and instructions for use of the gas fire pit, please refer to the operating instructions enclosed with the product.

Quality and warranty features of the materials that guarantee the longevity of the fireplaces

Fibre concrete is a concrete whose properties are optimised by addition of fibres, for example to prevent the cracks. **Ceramic** made of fired clay is a natural raw material directly from nature. The surface of the ceramic is extremely robust and resistant. Appealing appearance, high stability and a low weight are the characteristics of this material. **Basalt** is a basic, magmatic volcanic rock. It is a compact, durable and frost-resistant natural stone, which also has the ability to store heat.

Accessories included

Burner (depending on type)

Protection of the ignition unit

Brass fittings

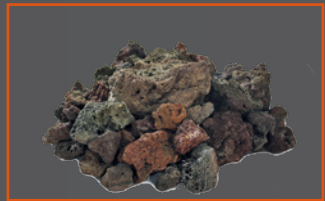

Pressure reducer with hose

Ignition unit/ Flow controller (depending on type)

Gas fire pit cover (depending on model)

Lava rocks

ELEMENTI + / ELEMENTI / MODENO
Product features

Pay attention to the respective pictograms next to the articles.

Product complies with the directives of the EU regulation.

Frost resistant.

The article is protected against the harmful effects of ultraviolet radiation.

Suitable for outdoor installation.

Suitable for LPG, butane and propane gas. Not for natural gas.

Suitable for commercial conversion.

For these fireplaces the standard quantity of glass is required.

For these fireplaces, twice the amount of glass is needed.

For the fire pits is an optional stainless steel cover for the burner available. Thereby the fire pits can be used as a table or tray.

For the fire pit is an optional round windscreen available to protect against the open flame.

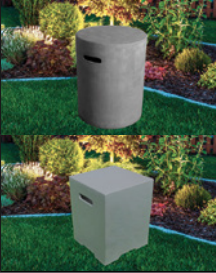

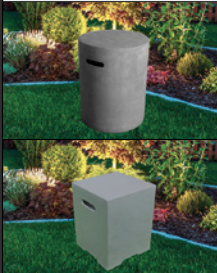

For the fire pit is an optional angular windscreen available to protect against the open flame.

Modular outdoor kitchen

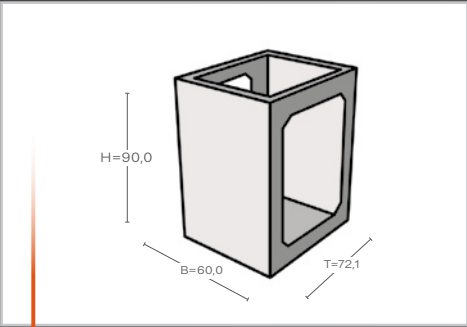

- Individually designable kitchen for garden
- Simple assembly
- Easy adaptation to your built-in components
- Strong fibreglass-concrete construction
- Extremely weatherproof
- Material thickness approx. 2 cm
- Open sides for generous storage space

Kitchen element module 1

Item number BSS01001
Size ca. 141 x 72,1 x 90 cm
Weight ca. 136 kg

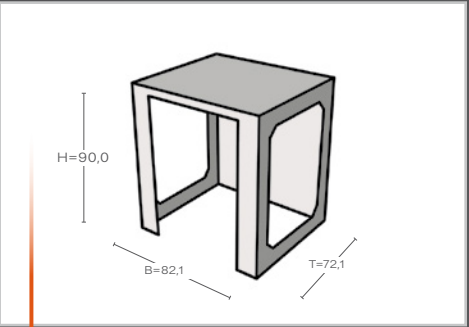

RRP 1.699,99 €

Kitchen element module 2

Item number BSS01002
Size ca. 60 x 72,1 x 90 cm
Weight ca. 55 kg

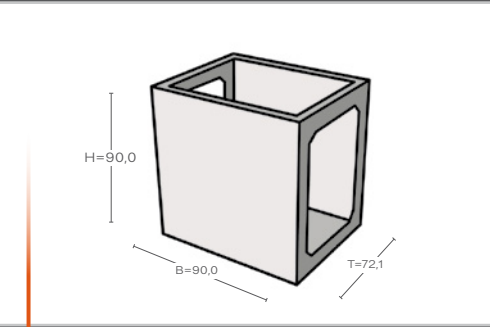

RRP 799,99 €

Kitchen element module 3

Item number BSS01003
Size ca. 82,1 x 72,1 x 90 cm
Weight ca. 56 kg

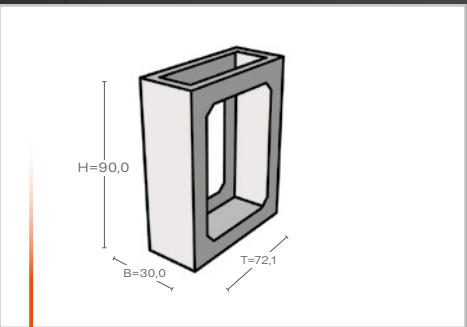

RRP 999,99 €

Kitchen element module 4

Item number BSS01004
Size ca. 90 x 72,1 x 90 cm
Weight ca. 81 kg

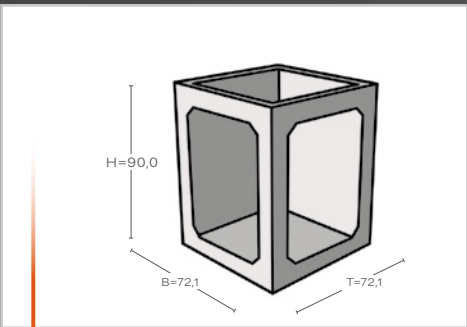

RRP 1.299,99 €

Kitchen element module 5

Item number BSS01005
Size ca. 30 x 72,1 x 90 cm
Weight ca. 35 kg

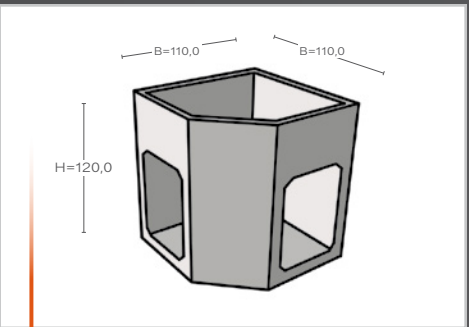

RRP 549,99 €

Kitchen element module 6

Item number BSS01006
Size ca. 72,1 x 72,1 x 90 cm
Weight ca. 69 kg

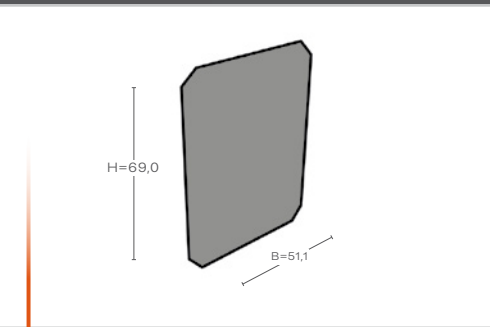

RRP 949,99 €

Kitchen element module 7

Item number BSS01007
Size ca. 110 x 110 x 120 cm
Weight ca. 143 kg

RRP 2.399,99 €

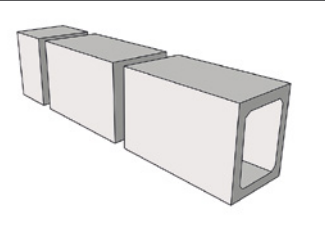

Kitchen element module 8

Item number BSS01008
Size ca. 51,1 x 1,2 x 69 cm
Weight ca. 11 kg

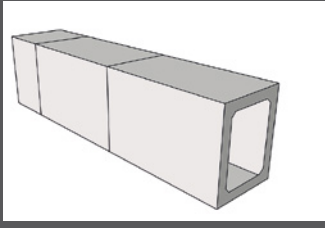

RRP 199,99 €

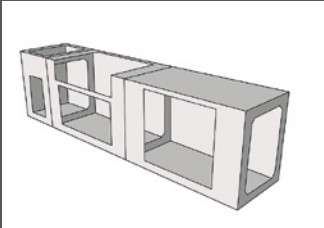

The five planning steps for your modular outdoor kitchen

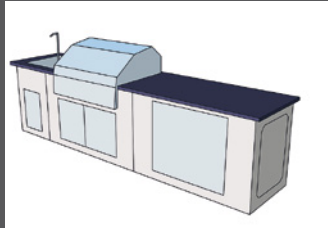

Step 1
Planning and design

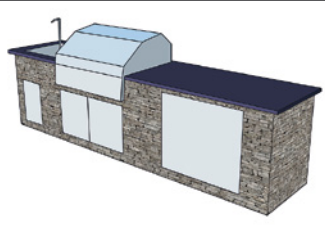

Step 2
Setting and adjusting the modules

Step 3
Sawing the cut-outs for your installation components

Step 4
Installation of the built-in parts and assembling the work surface

Step 5
Veneering of the modules

Cutting and cladding

Simple cutting with angle grinder or hand saw

Making cut-out for built-in grill and doors

Apply suitable adhesive to the cladding

Attaching and aligning the cladding to the kitchen module

Fixing the cladding

Finished wall look
