ABOUT ELEMENTI

Originated in Los Angeles, USA. Elementi is a group of artists and craftsmen that are dedicated to combining market with high-quality aesthetics of outdoor living in the wild landscape. Our directive is always to design and manufacture artistic combinations of form and function.

Beauty is the foundation of everything. For our product line of fireplaces, burners are reprocessed on items that are gorgeous on their own, which combination turn themselves into masterpieces that will be sure to become the highlight of any patio and landscape design.

Innovation and technique are the keys to progress. We design, manufacture and launch all of our products that are fresh to the marketplace. Our professional engineers design and built burner systems in our fireplaces, which serves for ideal size and shape of burners (modified burner ring and BTU output) and excellent flame

CUSTOM MANUFACTURING

Whether your preferred style is natural, historic or modern, our designers can create for you. We manufacture fire pits in a wide range of BTU outputs for both domestic and commercial installations. We can also incorporate features such as safety valves, pilots and remote electronic ignition into all our fire pits.

PRIVATE LABEL MANUFACTURING

Large capacity production is no problem for us. We can supply full truckloads of private labelling products for large volume retailers. Our designers are capable of revising our current designs or working with purchasing departments to create novel designs to meet their needs.

WHY US

Material:

Elementi uses GFRC (Glass Fiber Reinforced Concrete) to create its products, offering a superior balance of lightweight design and high strength compared to traditional concrete. Our patented high-temperature-resistant GFRC formula ensures exceptional durability, withstanding climatic changes effectively.

Design:

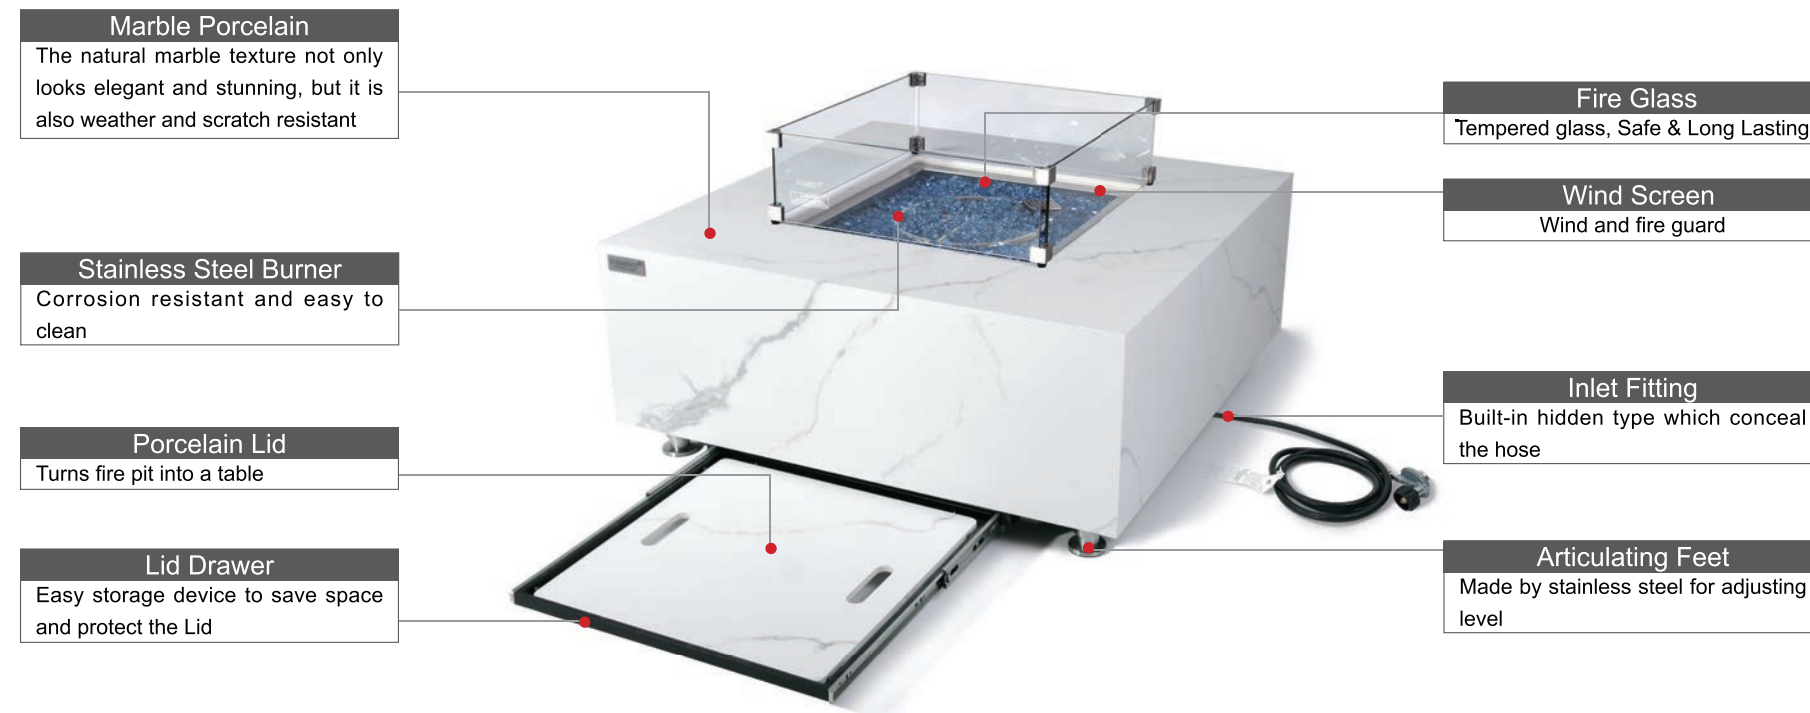

Backed by a global design team, Elementi develops innovative and aesthetically pleasing outdoor living solutions. Our designs seamlessly blend functionality and beauty, showcasing our commitment to leading industry trends. Elementi holds multiple patents and has received numerous prestigious design awards.

Safety:

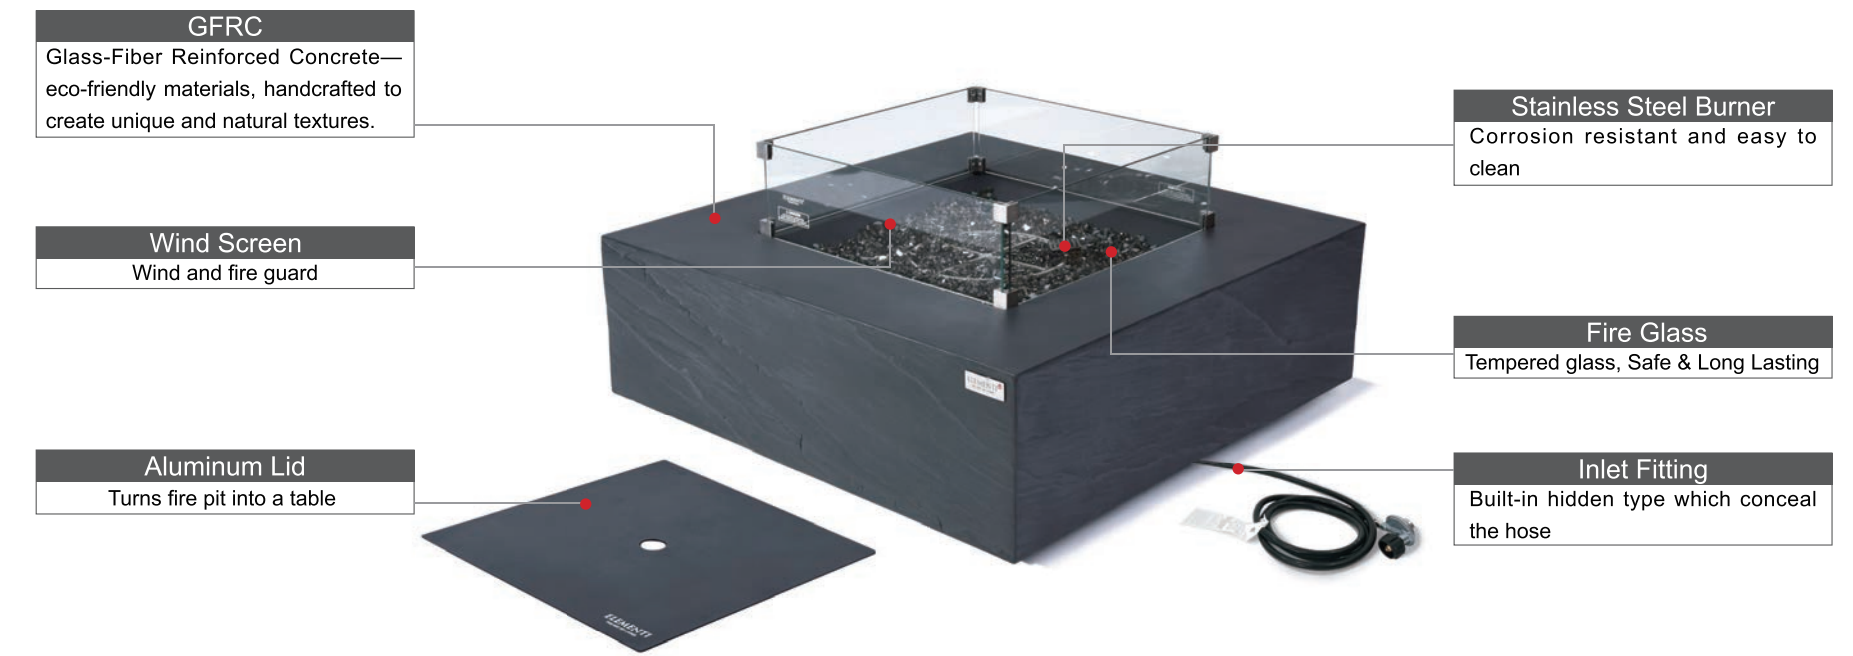

Elementi products are equipped with advanced leak protection systems to ensure stable gas flow. Vertical fireplaces feature tip-over protection for enhanced safety. Our efficient combustion technology produces a stable, smoke-free flame with no sparks, making it ideal for outdoor use.

Certifications:

All Elementi fire systems meet strict safety and environmental standards, including North American ANSI and European Union certifications. Our products are certified by CSA and CE, with CSA recognized as the leading authority on safety and environmental protection in North America.
